

## AXMAXX LCD ARMOR PROTECTOR INSTALLATION

### STEP 1.

Please make sure LCD screen surface is cleaned before applying ACMAXX LCD Protector. Make sure there is no dust or finger print on the LCD surface.

### STEP 2.

Peel protect sheet from the bottom of the protector. Be caution to keep out dust and finger prints from it. (Bottom side: Black Trim / Top side: Chrome Trim)

### STEP 3.

Apply LCD protector on your camera LCD screen. Once protector is placed properly, press firmly around the edge of the protector to attach it.

### STEP 4.

Remove the plastic protect sheet.

Enjoy taking pictures!
